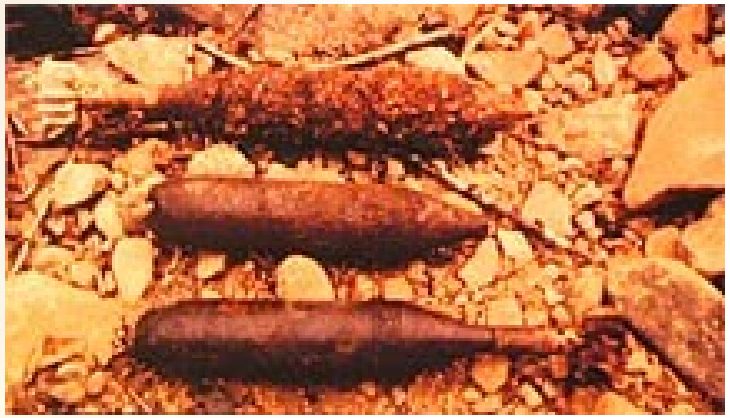
Avoiding the
Danger Zone
at Dolly Sods,
Monongahela National Forest,
West Virginia

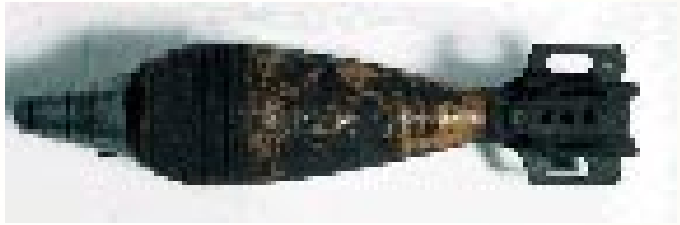
What is a Danger Zone?

Anywhere UXO are spotted.

What are UXO?

- **UXO** = **U**ne**X**ploded **O**rdnance
  - Mortars, bullets, etc.





Lengths vary up to 23 inches.

Where Did They Come From?

- Dolly Sods is also what is known as a Formerly Used Defense Site (FUDS) .
- During WWII, the United States Army used Dolly Sods for target practice.

Clean Up

- The U.S. Army Corps of Engineers (USACE) performed a clean up in the area.
- All of the UXO found were removed.
- However, there is still a risk that some undetected UXO could resurface.

Public Safety

If precautions are taken, you, your family, and friends will remain safe during your visit at Dolly Sods.

Take Precautions

- Camp in established campsites.
- Stay on designated trails.
- Do not create new campsites or trails.
